by J Van Wiekel 2012 cds addera.com.np References Category:Project management software Category:Free business software Category:Free project management softwareQ: Get the number of items in an ArrayList with specific attributes I have a List with the following format: List multiDimArrayList; MultiDimArrayList list1; MultiDimArrayList list2; ... I want to find the number of items in the List, but the MultiDimArrayList has different attributes like the following: Maximum size: (2147483647) Minimum size: (0) Dimension 1: (1) Dimension 2: (1) Is there any way to find the number of items without iterating through all items? Thanks A: I found the solution and the only way to do it is: int arrayListSize = multiDimArrayList.size(); and then you can iterate through each item. Baden-Wuerttembergischer Seeaufbau- und Natur-Park Baden-Wuerttembergischer Seeaufbau- und Naturpark is an ecological park in the district of Neuwied and Rhineland-Palatinate, Germany. It was established on 2 July 1983. It has an area of 4.71 km². The park is the second largest urban park in Germany and in the whole of Europe. Geographical location Baden-Wuerttembergischer Seeaufbau- und Naturpark is in the southwest of the city of Neuwied, on the shores of the Rhine river. It is located in a tributary region of the Rhine, the Schwalm river, which is one of the most important watercourses of the Rhine's main tributary, the Rhine. Flora and fauna Among the plants of the park's 5,000-6,000 trees are 200 species of tree and shrubs, such as: lime chestnut oak almond beech white poplar rowan hornbeam silver birch fruit trees conif
