After I applied this instruction, I was able to install and launch the program, but on launching I get the following message: Не могу установить пакет из директории, известной "C:\Program Files (x86)\PCStitch\PCStitch.exe", поскольку возможная ссылка на этот пакет недопустима. Пробовал изменить файл "Windows Registry Editor Version 5.00", но проблема не исчезла. What do I do to install it properly? A: It's safe to uninstall PCStitch and try installing from the downloaded archive file (I just tried

---

this with version 10.00.018.0 and it works fine). In the OP's case, the program will no longer crash when trying to access the Program Files directory. Edit: Apparently, that's not the solution. Opening PCStitch.exe directly from the archive file will still crash. Maybe the OP has the 32-bit.exe file on a 64-bit Windows system. I do have another solution though. In the downloaded archive file, open the "Cracked.ini" file and search for the line "SafeMode" and set it to "off". Then open PCStitch.exe directly from the archive file. Matt Cassel Matthew

---

Carl Cassel (born October 8, 1980) is a former American football quarterback. He played college football for the University of Kansas and was drafted by the Kansas City Chiefs in the second round of the 2004 NFL Draft. High school career Cassel played high school football at Ladue Horton Watkins High School in St. Louis, Missouri. He threw for more than 3,000 yards and 24 touchdowns during his senior season, leading the Panthers to an 11–3 record and an appearance in
