Citrix NetScaler is a purpose-built appliance platform for Firewall, WAF, Web Application Firewall, and Security Gateway. The Citrix NetScaler Agent software directly and securely connects NetScaler appliances to the network in order to function as a secure gateway and session server. While NetScaler Manager provides the administrative and management interface for NetScaler, much of its functionality is exposed and mediated via the Citrix agent. The Citrix NetScaler now integrates with Oracle Database 12c, Oracle Essbase, Oracle Essbase BI, and Oracle Business Intelligence Reporting and Analytics. Citrix NetScaler Agent enables communications to be established between the Citrix NetScaler platforms and the Netscaler Manager (with an added user interface for privileged administrative tasks such as VPN and security services), and between the NetScaler Agent and the Citrix NetScaler Manager. Citrix NetScaler Manager enables the administrative tasks of a business user to assign network configurations and user profiles, define policies and rules, and control access for networked applications.
